

PRESS RELEASE

Dr. Peter Mrosik meets Serbian President Aleksandar Vučić

As part of his current business trip to Serbia, Dr. Peter Mrosik, owner and CEO of the profine Group, met the President of the country, Aleksandar Vučić, on June 30, 2022.

The conversation was about the economic relations between Germany, Europe and Serbia and the expansion of profine's location in the country. The system provider acquired a 600,000 square meter property there in May.

A new production site for the group is to be built there, which will serve as a hub for south-eastern Europe. In addition, a large photovoltaic system is planned on an adjacent site, which - operated by the newly founded profine Energy GmbH - can supply environmentally friendly electricity both for its own needs and for interested local partners.

Dr. Peter Mrosik: "The talks with President Vučić were very promising with regard to the strategically oriented growth of the profine Group. I am very pleased to receive support from such high quarters, especially for our course which is designed for sustainability and renewable energies."
