INTERNATIONAL PHOTO COMPETITION

RULES FOR PARTICIPATION

Eligible entrants

The photo competition is open to profine employees, profine customers, distributors and architects, (from Germany and abroad), who work with our products.

File quality

The image quality of the photos should be as high as possible, i.e. suitable for printing. We are looking for appealing images featuring our window and door profiles (KBE, KÖMMERLING, TROCAL) in various areas, which can be photographed again professionally and in high quality by one of our photographers, if required.

Image rights

It is essential that the photographs are free of third party rights, i.e. that we may use them for printed advertising publications and that the owner or operator of the building does not object to such use.

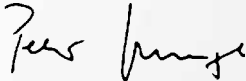

Dear profine partner,

Phantastic houses, impressive construction projects, international references – it is your work that gives our products greater value on the market.

We want to pay tribute to these achievements, which is why we launched our international photo competition.

I am pleased to invite you to take part and am eagerly looking forward to seeing your entries!
