

## KÖMMERLING 88

Premium Centre seal system –  
Residential door system AluClip, outward opening.

**KÖMMERLING®**

# PIONEERING FUNCTION AND DESIGN.

Outward opening KÖMMERLING 88 residential doors are used in commercial buildings as emergency exits and in private households with hallway space constraints.

## Timeless design with aluminium facing shells.

KÖMMERLING 88 residential door systems with AluClip combine the advantages of the materials of aluminium and PVC. Elegant aluminium on the exterior offers practically unlimited design options, while the PVC profiles on the inside deliver dimensional stability and high functional reliability.

## Integrating advanced technologies.

KÖMMERLING 88 residential door systems have a range of special technical features for effective security, outstanding heat insulation, excellent windproofness and high static stability. The barrier-free threshold with thermal break also enhances comfort and heat insulation. A KÖMMERLING 88 residential door system is always the right choice.

## KÖMMERLING 88 - AluClip

Residential door system with 88 mm installation depth, outward opening with aluminium facing shells for individual colour schemes.

- Pioneering 6-chamber design with max. dimensioned steel reinforcement and welded corner connectors for higher static stability.
- Outstanding heat insulation compared with aluminium doors.
- Deep glass rebate for modern triple glazing, special functional glazing or door panels up to 58 mm thick.
- Two sealing layers and a barrier-free threshold with thermal break for high windtightness.
- Aluminium look on the outside, neutral white on the inside.
- Practically unlimited choice of aluminium shell colours with finishing techniques including Eloxal and powder coating.
- Maximum sash sizes:  
Single door 1000 x 2200 mm  
French doors 900 x 2200 mm
