

KÖMMERLING 88

Premium Centre seal system –
Residential door system, outward opening.

KÖMMERLING®

ENHANCES SECURITY AND SAVES SPACE.

Outward opening KÖMMERLING 88 residential doors are used in commercial buildings as emergency exits and in private households with hallway space constraints.

Security can be this beautiful.

The KÖMMERLING 88 residential door system adds a distinctive feature to your home and offers maximum intrusion protection for your safety and security. The barrier-free threshold with thermal break also enhances comfort and heat insulation. Design a door to reflect your personal preferences. KÖMMERLING 88 offers diverse wood textures, plain and metallic colours, functional and decorative glazing, door panels and additional features.

Pioneering technology.

KÖMMERLING 88 residential door systems have a range of special technical features for effective security, outstanding heat insulation, excellent windproofness and high static stability. A KÖMMERLING 88 residential door system is always the right choice.

KÖMMERLING 88

Premium residential door system with a contemporary installation depth of 88 mm.

- Pioneering 6-chamber design with max. dimensioned steel reinforcement and welded corner connectors for higher static stability.
