WINDOWS AND DOORS FOR INNOVATIVE PERSPECTIVES

Kömmerring 76 double seal AluClip Pro

Pioneering quality that you can experience every day – this is the Kömmerring 76 double seal window and door system with the AluClip Pro aluminium cladding. Its great strength is that the advantages of PVC-U and aluminium are combined in a single system. The result? Excellent insulating values and thus high heating cost savings, optimal sound and burglary protection as well as a wide range of design options. The perfect basis for non-stop comfortable living.

SUSTAINABLE

- Exceptional thermal insulation
- Thus noticeable heating cost savings
- High stability due to the connection of PVC-U profile and aluminium cladding
- Aluminium takes over the static function – the energetically unsuitable steel reinforcement in the sash is omitted up to a certain sash size

USER-FRIENDLY

- High quality of life through optimal sound insulation
- Easy to clean, double resistant, long-lived and robust
- High functional reliability thanks to state-of-the-art technology
- Secure burglary protection

AESTHETIC

- Straight lined, flush-mounted window design with butt joined aluminium claddings
- Almost unlimited range of colours of the aluminium claddings due to finishing techniques such as anodised and powder finishing
- Wide range of glazing variants up to 50 mm thick for the use of triple glazing or special functional glazing
- Aluminium look outside, neutral PVC white inside
