CLEVER, AESTHETIC AND SUSTAINABLE

Kömmerring 76 double seal Standard

Our window and door system with a construction depth of 76 mm impresses at first glance with its slender profiles and huge glazed areas that maximise the incoming light. The innovative profile technology ensures stability. As you can see, everything is here, from design to functionality.

SUSTAINABLE

- Highly thermally insulated: U_f value = $1.1 \text{ W}/(\text{m}^2\text{K})$ even in the standard design
- Significant reduction of CO_2 emissions and high energy costs
- Resource-saving use of materials
- Professional recycling
- Offers lasting value thanks to its longevity and excellent quality

ADAPTABLE

- Great product diversity: House, balcony and terrace doors, parallel sliding-tilting doors
- Broad design spectrum: Available in PVC-U white, laminated in plain and metallic colours, wood grain, and with the innovative proCoverTec surface technology

USER-FRIENDLY

- Improved quality of life thanks to perfect sound insulation
- Improved security thanks to integrated burglary protection
- Improved handling ease and reliable functionality through the use of state-of-the-art technology
- Cosy living climate thanks to the sophisticated ventilation program
- Easy to clean thanks to the robust, weather-resistant surfaces

INNOVATIVE

- Also suitable for renovations - even for architecturally elaborate projects with complex energy requirements
