AluClip**

# THE ELEGANT PREMIUM SOLUTION

## Kömmerling 88 centre seal AluClip

Kömmerling 88 AluClip centre seal brings together the advantages of two high-quality materials: The combination of PVC-U profiles and aluminium shells scores high marks for energy efficiency and elegance at the same time. The result: insulating values at the highest level and an almost unlimited range of colours.

### ALUMINIUM SHELLS

- › Straight lined, offset window design with butt joined aluminium shells
- › Aluminium look outside, neutral PVC-U white inside
- › Almost unlimited range of colours of the aluminium shells due to finishing techniques such as anodised and powder finishing

### ADAPTABLE

- › Great product diversity: Windows, house, balcony and terrace doors

### INNOVATIVE

- › For ultra-modern triple glazing or functional glazing with thickness up to 58 mm
- › Large glazed areas and narrow, extremely stable profiles

### SUSTAINABLE

- › Premium centre seal system for windows and doors with an installation depth of 88 mm
- › Excellent thermal insulation values
- › Optimised use of materials, which therefore saves resources
- › Eco friendly, lead-free stabilisers with the greenline label

### USER-FRIENDLY

- › For the highest sound insulation requirements
- › Improved handling ease and reliable functionality through the use of state-of-the-art technology
- › Easy to clean, long-lived and robust
