TODAY FOR TOMORROW

FOR WINDOWS WITH A HOLIDAY FEELING

**Naxos folding shutter system**

# MEDITERRANEAN RAYS OF LIGHT FOR YOUR HOME

Naxos folding shutter system

**How about a touch of the south for your home? With the Naxos folding shutter system, this is achieved in no time at all – thanks to the Mediterranean design and a wealth of colours and wood grain laminates.**

The material alone is enough to put you in a good mood: Kömmerling folding shutters are made of high-quality PVC-U. This makes them exceptionally easy to clean and almost indefinitely durable. Another great advantage is that Naxos is ideally suited for new buildings and renovations.

## HEAT AND NOISE PROTECTION

Our folding shutters offer an all around guard against wind, weather, heat, cold and forced entry. They also create an air cushion between indoors and outdoors. This muffles noise and keeps the heat inside – an important contribution to reducing your energy costs.

## SOUTHERN FLAIR

With Naxos, you can completely change the character of your home. The folding shutters lend an exceptional Mediterranean touch and are decorative eye-catchers.

## SOOTHING SAFETY

Modern folding shutters make entry more difficult and therefore protect against uninvited guests. That gives you a good feeling.

## EFFECTIVE VENTILATION

The cooling air can enter, the heat stays outside. This allows you to ventilate at will in the shade of closed folding shutters with the window open.

## PERFECT SUNSHADE

Naxos folding shutters provide shade and create a relaxed atmosphere – perfect for unwinding.

## VARIANTS

A variety of designs is possible, whether as folding, collapsible or sliding shutters:

Inclined lamella

Universal lamella, inclined

Universal lamella, ventilation/sealed

Board filling
