

PERFECT FOR NEW BUILDINGS

PVC-U roller shutter system Z 56

THE SOLUTION FOR NEW BUILDINGS

PVC-U roller shutter system Z 56

Generous glazed areas, maximum incoming light, elegant look: This is what modern architecture looks like. And our Z 56 PVC-U roller shutter system is designed for just that.

It is the most stable roller shutter slat and protects against sun, reduces noise and keeps the heat inside.

FOR ROOMS FLOODED WITH LIGHT

With its very good winding diameter and extremely stable design, the Z 56 roller shutter system is ideal for large window and terrace door surfaces. The result is invitingly bright rooms.

EASY TO CLEAN AND TOP IN A PRACTICAL TEST

The roller shutters are extremely easy to clean – simply with water and cleaning agent. Thanks to their low weight, they can be operated without much effort. The automated variant offers even more comfort.

ROBUST AND SUSTAINABLE

The PVC-U roller shutter system is resistant when exposed to wind and weather, and resistant to mechanical stress and strain. It is also low-maintenance and sustainable.
