PREMILINE PATIO DOOR

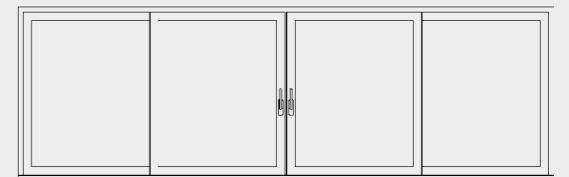

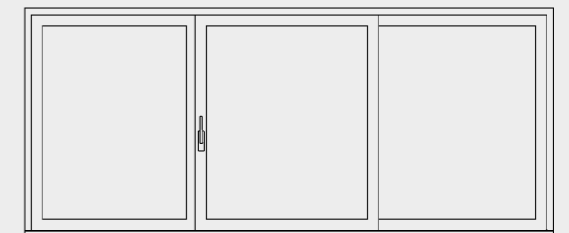

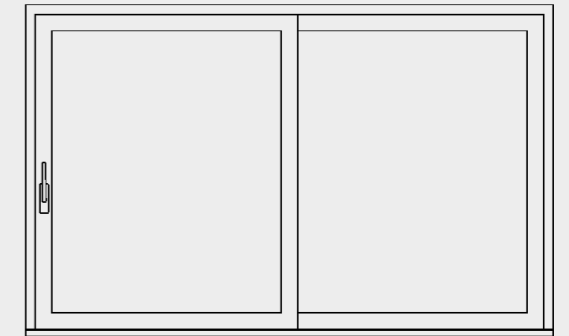

Modern design, perfectly
engineered and highly secure.

KÖMMERLING®

Available in 2, 3 and 4 pane options:

LIGHT AND SPACE

The PremiLine patio door from KÖMMERLING has been a market leader for several years, thanks to its proven design and lasting performance. It's also available in 11 finishes from the clean finish of flat white, to rich woodgrains such as Irish Oak and the 'in vogue' colour of Anthracite Grey.

It's a perfect product to offer an unobstructed view of the garden or terrace and now features a number of upgrade options including the enhanced security locking mechanism at the interlock, soft-close functionality and heavy-duty roller set.

FLEXIBILITY AND PERFORMANCE

Our patio door range offers complete flexibility in 2, 3 and 4 pane options, along with a unique triple track variant. KÖMMERLING is renowned for product design and our PremiLine patio door range perfectly supports this approach.

Multi-chambered profiles enhance the energy efficiency performance of the PremiLine patio door range, with enhanced security details and strong environmental credentials.

High performance

High quality stainless steel tracks guarantee the maximum possible service life. The design also allows for super smooth running sliding doors, moving at the slightest touch.

Greater spans

With a maximum sash size of 2 m and up to 4 m wide in a 2-pane variant, the PremiLine patio offers great flexibility. It can also reach a height of 2.3 m.

Triple track

Our unique triple track option opens up the possibility for larger openings up to 6 panes with 4 sliding sashes and greater flexibility in application.

Patented Multi-Point Lock

- Offers unrivalled security in a patio door
- Unique pop-out handle in a range of finishes
- Has achieved PAS 24 in 2, 3 and 4 pane variants
- Also satisfies the Lifetime Homes standard

Soft Close Mechanism

- Anti-slam feature
- Super smooth operation
- Clever mechanism reduces risk of trapping fingers and damage to the door

Heavy Duty Rollers

- For 2, 3 and 4 pane doors
- A 60% increase in loading capabilities
- A smoother operation on the opening sash
- Up to 160kg for larger sized applications and triple glazing specifications

PACKED FULL OF NEW FEATURES

These new features on our PremiLine patio door, make for the most feature rich product of its type in the UK PVCu market. Enhanced security, long-term performance and soft close technology make this the ultimate patio door.

These premium upgrades to the PremiLine patio door are available exclusively from Window Ware, our hardware partner for PremiLine Pro.

PRODUCT AND PAS 24 SECURITY UPGRADES

The PremiLine patio door now benefits from a number of operating enhancements and a unique, patented enhanced security variant in the form of the PremiLine Pro. It has been one of the first PVCu patio doors to achieve the high security standard of PAS 24 without the need for additional locking. It is also Document Q, Document M and Secured by Design compliant and meets the stringent requirements for Lifetime Homes.

Other product features unique to the PremiLine patio door include an anti-slam device with soft-close functionality, a new sash stop and heavy duty rollers for outstanding long-term performance.

Unrivalled PAS 24 Security

The PremiLine Pro variant provides a PAS 24 and patented multi-point lock at the patio door interlock for unrivalled security with a new 3-position pop out handle and for 2, 3 and 4 pane variants. It's also Document Q and Secured by Design compliant, making for one of the most secure patio doors in the UK.

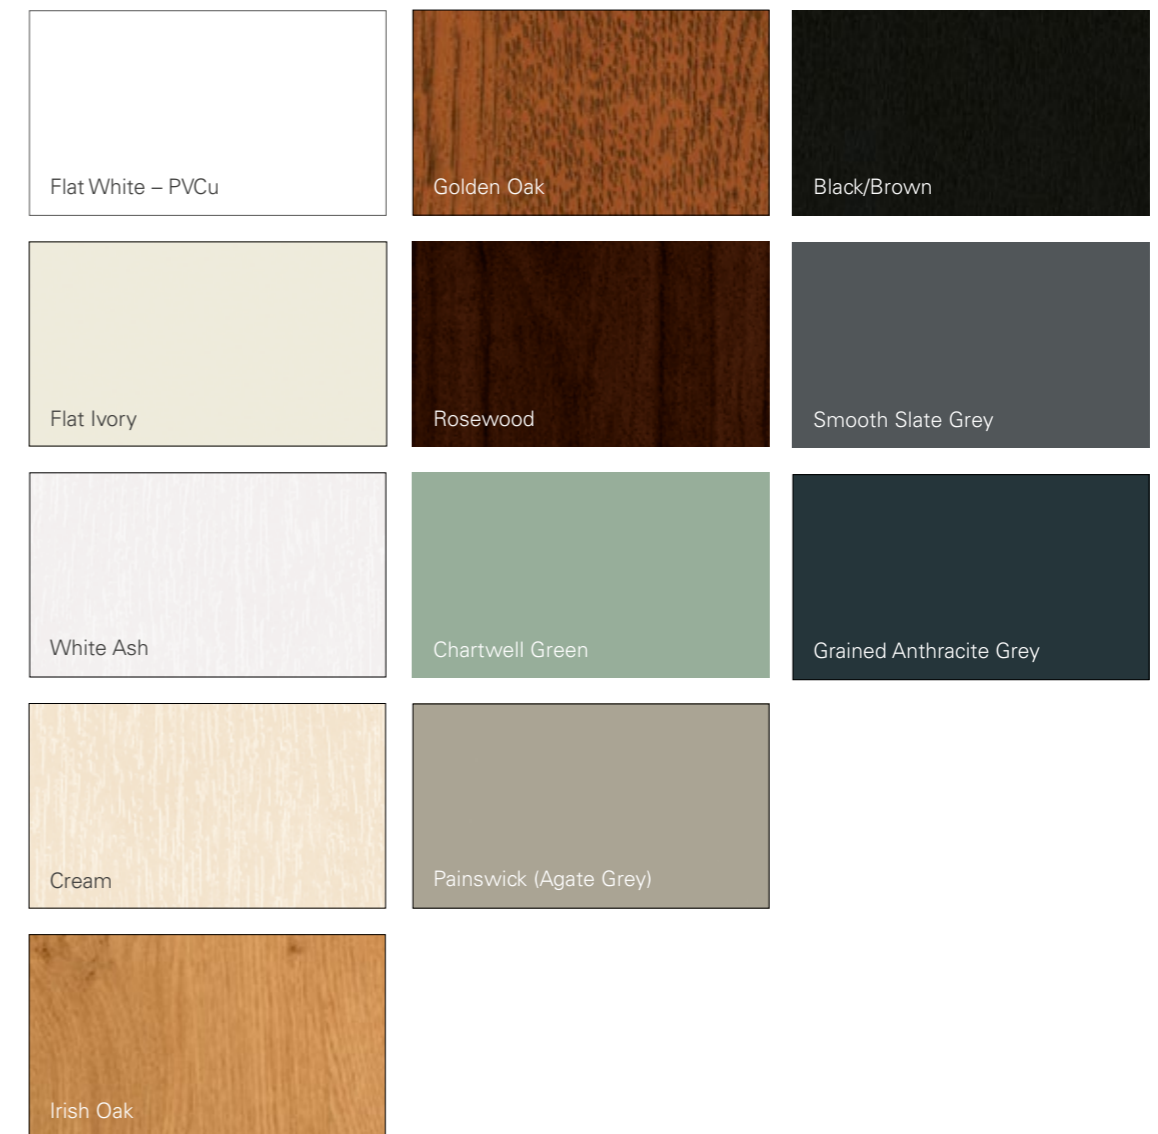

YOUR WINDOW TO A BETTER WORLD

Protecting the climate. Keeping the oceans clean. Helping people. Even if you think that you can only make a limited contribution as an individual, we can create a great future together with a KÖMMERLING premium window or patio door. We take sustainability, the environment and social responsibility just as seriously as you do and that's why Your Window to a Better World is our commitment to everyone's future.

A KÖMMERLING premium window or patio door is a smart purchase in every respect. It delivers a range of positive benefits, from innovative technology and patented burglary protection, to climate protection and eco-friendliness with the use of our unique Greenline compound. Why not invest in your home with KÖMMERLING, after all it's your window to a better world.

2020 COLOUR PROGRAMME

The following colours and woodgrains form part of our 2020 range and benefit from an upgraded surface. For other options please speak to your local KÖMMERLING partner.
