# PremiLine - Patio Door

## Innovation and Energy Efficiency

Like all of our window and door systems, the PremiLine patio door is packed full of features and the option of a dedicated triple track option for wider openings and as a genuine alternative to a bi-folding door, yet with a great passage of light.

Kömmerling and parent company, profine Group, also lead the way across Europe with their lead-free Greenline compound that was developed over 12 years ago. In the UK some Systems Companies still use lead as a stabiliser in their PVCu compound. At profine, we understand the importance of the environment in terms of harmful materials, recycling and energy efficiency.

- 1 Can offer 2, 3 or even 4 panel openings.
- 2 High quality stainless steel tracks guarantee the maximum possible service life.
- 3 Extremely smooth running sliding doors, moving at the slightest touch.
- 4 Offers high security and large units are easily achieved.
- 5 Striking design with a choice of low sightline gaskets in black or grey.
- 6 Outer frames can be welded or mechanically jointed. Low threshold option also available.
- 7 Option of full length aluminium handle for further stability (not shown).
- 8 Also available as a triple track patio door system

## An Extensive Range of Colour

With over 40 rich colours and realistic woodgrains, there are a huge number of finishes for the PremiLine patio door system, making it a feature on any conservatory, or home extension or renovation project.
